

FEATURES

mm inch

• Quiet

Noise has been reduced by approximately 20 dB, using our own silencing design.

• Less space required

Measuring only 17(L)×13(W)mm (.669(L)×.512(W) inches), this product ranks first among automotive quiet relays in terms of saving space.

• Sealed construction

• Next-generation standard terminal pitch employed

The terminal array used is identical to that used in JJM relays.
